

## MEDICATION NOTICE FOR DIABETICS

The test you are having may interfere with your Metformin (brand names include: Actoplus, Avandamet, Fortamet, Glucophage, Glucophage XR, Glucovance, Janumet, Kombiglyze, Metaglip and / or Riomet) diabetic medication.

1. This notice applies only to the Diabetic medications listed above. You may resume all other medications as normal.
2. Do not take **Actoplus, Avandamet, Fortamet, Glucophage, Glucophage XR, Glucovance, Janumet, Kombiglyze, Metaglip and/or Romet.**
3. Do not resume your diabetic medications for 48 hours after your exam.
4. Increase your fluid intake for the next 48 hours to flush the barium and IV contrast from your system.
5. You may resume your normal diet immediately.
6. If you need a copy of your medical records or images, please provide a 48 hour notice to the medical records department.
7. If you have any questions or concerns please do not hesitate to call the number listed above.
