

HDI

OUR EXPERIENCE

Promoting healthy **COLLABORATION** with the medical communities we serve

High Desert Imaging was born from a vision of collaboration with medical providers like yourself who are dedicated to improving the wellness of our local communities. Our long tradition of medical stewardship places service excellence and integrity into every relationship and advocates greater continuity of care through integration of resources, patient education, and preventative measures.

HDI and Tahoe Carson Radiology | Working Together

High Desert Imaging brings choice in cost-effective, quality medical imaging and so much more. The diagnostic experts behind HDI are Board Certified radiologists of Tahoe Carson Radiology (TCR), a reputable name in operating successful imaging centers and providing reliable, professional imaging services to physicians, hospitals, and urgent care centers throughout NV. TCR doctors have a diverse collective experience, some with fellowship training in interventional, breast, neuro and musculoskeletal imaging.

When you choose HDI, you'll receive dedicated attention and affordable imaging from a team who understands your needs along with convenient radiology consultations and ordering guidance, expert study interpretations, and easy global billing for patients.

*local | affordable | reputable
Medical Imaging Services*
